PREPAY \$350 NOW UNTIL NOVEMBER 22

We take a combination of having a excellent location with great rivers, and take a excellent staff of diverse instructors. Our staff includes a pro paddler from Team Pyranha US, a PSIA certified ski instructor from Aspen, high school educators, to National Geographic sponsored explorers. When you add the kids into the mix you get a great week of fun progressive instruction based learning. Most of our students go from Class I Beginners to Class III and master the Lower Yough. Our advanced group will learn new play boating moves and how to run a waterfall correctly. During the week, students are able to check out the new sport of Stand Up Paddle Boarding. We hop on boards at the Yough Lake during our evening cook out, and then take it down the river through class II rapids. Sort of a break in the week's action. Each session we paddle at the Adventure Sports Center Institute, Yough River, Cheat Narrows, Valley Falls, and Cassleman Rivers or where ever the water levels take us.

Our program's main focus is to build confidence and skills in younger paddlers, while providing a safe learning environment. Each day we take our students through a progression that allows each paddler to develop a understanding of river running techniques, self rescue, river rescue, play boating, and creek boating skills. Our week begins on the Yough Lake above our river store location. From here we divide groups in to appropriate levels of abilities to begin a great week of learning.

- **All transportation & equipment included**
- **All meals provided by Lucky Dog Cafe**
- **Camping at Paddler's Lane Campground**
- **Students supervised at all times**
- **or pay \$250 - 1/2 down to secure spot**
